

A few days ago, the IRS has released data showing the percentage of income taxes paid by Americans. Courtesy of the National Taxpayers Union, the table below shows, the top 10% of filers paid nearly 71% of all income taxes paid. The share paid by the bottom 50% drops from 3.07% in 2005 to 2.99... A few days ago, the IRS has released data showing the percentage of income taxes paid by Americans. Courtesy of the National Taxpayers Union, the table below shows, the top 10% of filers paid nearly 71% of all income taxes paid. The share paid by the bottom 50% drops from 3.07% in 2005 to 2.99% in 2006. You can see previous years [here](#). You can also see "who doesn't pay taxes" [here](#)
